

OKVM410H

4-Port KVM Switch with HDMI and USB Ports

4 PCs, monitor: HDMI, keyboard: USB Type-A, mouse: USB Type-A, desktop controller, desktop, metal casing

OKVM410H is a desktop 4-port KVM switch with HDMI and USB ports.

The ORIGO OKVM410H KVM switch allows you to manage up to 4 PCs with one monitor, keyboard and mouse. The KVM switch is compatible with the HDMI 2.0 standard and supports 4K resolution (4096x2160/3840x2160 at 60 Hz). You can switch between PCs using the buttons located on the front panel, hot keys and the desktop controller.

The OKVM410H KVM switch doesn't require specialized software installation and can work with computers with different operating systems installed. This KVM switch supports hot-plugging - you don't need to turn your computers off before installing the device. The package contents include two 1.5 m KVM cables. Autoscan mode provides automatic switching to the next PC after the scan interval expires.

The KVM switch is also equipped with two additional USB ports for sharing external hard drives and USB storages.

The OKVM410H KVM switch can function without external power adapter by powering from USB port of your PC. The 5V DC/2A power adapter (not included) may be required when connecting external hard drives and other USB devices with increased power consumption.

Key Features
