OU330N

USB-C / Gigabit Ethernet Network Adapter with 3 USB 3.0 Ports

1x10/100/1000Base-T LAN (RJ-45), 3xUSB 3.0 Type-A

OU330N is a network adapter with Gigabit Ethernet port and 3 USB 3.0 ports for PCs and laptops with USB Type-C port.

The ORIGO OU330N network adapter provides gigabit connection over Ethernet cable for PCs and laptops that don't have LAN (RJ-45) port, but have USB-C port.

Built-in 3-port USB 3.0 hub allows you to connect external hard drive, mouse, keyboard, USB headphones, USB camera and other peripherals to your PC or laptop.

Key Features

- For PCs and laptops with USB Type-C port
- Gigabit Ethernet port with network activity LED
- 3 USB 3.0 ports for computer peripherals
- Compatible with Windows, macOS, Linux operating systems

Specifications

Hardware

Connector for Connecting PC	• USB Type-C
Ports	• 1 Gigabit Ethernet (RJ-45) port • 3 USB 3.0 Type-A ports
LED	• Link/Activity (for Gigabit Ethernet port)
Standards	• USB 3.0 • USB 2.0 • USB 1.1 • IEEE 802.3 10Base-T • IEEE 802.3u 100Base-TX • IEEE 802.3ab 1000Base-T
Data Rate	• Up to 5 Gbps (USB 3.0) • Up to 1000 Mbps (Ethernet)

ORIGO

System Requirements

PC Minimum Requirements	• Available USB Type-C port
	• Compatible OS:
	- Windows 7/8/8.1/10/11
	- Mac OS 10.x and higher
	- Linux Kernel 2.6 and higher

Physical Parameters

Dimensions (W × D × H)	• 85 x 23 x 16 mm

Operating Conditions

Power Input	• From computer (from USB bus)
Temperature	• Operating: 0 to 40 °C
	• Storage: -10 to 70 °C
Humidity	• Operating: up to 85% (non-condensing)
	• Storage: up to 85% (non-condensing)

Package Contents

Package Contents	• OU330N Network Adapter
	• Quick Installation Guide
