

OI3112P/185W

12-port Gigabit L2 Industrial Managed Switch with 8 PoE+ Ports and 4 Combo Ports

8x1000Base-T PoE+ (RJ-45), 4xCombo 1000Base-T/SFP, 185W PoE Power Budget, 250m PoE distance, -40 to +75 °C Operating Temperature, IP40-rated

The ORIGO OI3112P/185W Industrial Layer 2 Managed Switch is equipped with 8 Gigabit PoE+ ports and 4 Combo 1000Base-T/SFP ports.

The ORIGO OI3112P/185W switch is designed for building secure and fault-tolerant data transmission networks and for supplying powering high-consumption PoE equipment at sites with strict environmental requirements.

The ports 1 to 8 support IEEE 802.3af/at PoE standards, providing up to 30 watts of power per port with a total PoE budget of 185 watts. Built-in ESD protection meets industry surge standards, guarding the switch and connected devices from damage and network instability caused by ESD and lightning-induced surges.

The switch is adapted for using in the CCTV systems. The Extend PoE mode allows to overcome a standard Ethernet 100 m limit and to connect IP cameras at the distance of up to 250 m at the rate of 10 Mbps. This simplifies the installation and reduces the cost when building CCTV networks. The support of PD Alive и PoE schedule functions provides an automatic restart of hanging devices and the power optimization.

The ORIGO OI3112P/185W operates in a wide temperature range from -40 to +75 °C and supports connection of two independent DC power supplies with redundancy capability, such as the [OI240WPSU](#) or [OI480WPSU](#). The rugged metal housing with IP40 protection and passive, fanless ventilation system ensure stable operation in stringent industrial environments.

The switch's features include the support for static routing, virtual local area networks (VLANs), quality of service (QoS), multicast management, security functions, and user access control.

To enhance network performance and fault tolerance, the switch supports link aggregation (LACP), connection redundancy through STP/RSTP/MSTP protocols, and LoopBack Detection for preventing network loops. SCP and Fast Ring DIP switches allow to quickly activate broadcast storm control and ERPS function, ensuring minimal recovery time in case of a line failure within the ring.

Key Features

- 8 x 10/100/1000Base-T ports with 802.3af/at PoE support
- 4 x Combo 100/1000Base-T/100/1000Base-X SFP
- Total PoE power budget: 185 W (up to 30 W per port)
- Adapted for CCTV: up to 250 m PoE distance, PD Alive and PoE schedule
- Dual redundant 48–57 V DC power inputs
- Alarm relay output (dry contact)
- DIP switches for quick activation of ERPS and storm control
- Surge protection up to 4 kV; ESD protection up to 8 kV
- Operating temperature: -40 to +75 °C
- Rugged metal housing with IP40 protection; DIN-rail mountable
- Static IPv4/IPv6 routing
- Advanced VLAN features: 802.1Q, Q-in-Q, Multicast VLAN
- 802.1X authentication, ACL, Port Security
- Management via web interface, Telnet, SSH, console, and SNMP

Specifications

Hardware

CPU and Memory	<ul style="list-style-type: none">• CPU: RTL8382MI• RAM: 128 MB• Flash: 32 MB
Interfaces	<ul style="list-style-type: none">• 8 x 10/100/1000Base-T PoE ports• 4 x Combo 100/1000Base-T/100/1000Base-X SFP ports• RJ-45 console port
Standards and Functions	<ul style="list-style-type: none">• IEEE 802.3 10Base-T• IEEE 802.3u 100Base-TX• IEEE 802.3ab 1000Base-T• IEEE 802.3u 100Base-FX• IEEE 802.3z 1000Base-X• IEEE 802.3af PoE• IEEE 802.3at PoE+• IEEE 802.3x Full Duplex Flow Control• IEEE 802.3az Energy-Efficient Ethernet• Auto MDI/MDIX on all copper ports
LEDs	<ul style="list-style-type: none">• Power<ul style="list-style-type: none">- On: Power on state- Off: Power off state

	<ul style="list-style-type: none"> • Link/Act (Ports 1–12) <ul style="list-style-type: none"> - Always bright: terminal device is connected - Blinking: Data transmission in progress - Off: No connection • PoE (Ports 1–8) <ul style="list-style-type: none"> - On: PoE device is connected - Off: No PoE device connected • SYS <ul style="list-style-type: none"> - Blinking: System operating normally - Off: System is booting or a fault has occurred
DIP Switches	<ul style="list-style-type: none"> • Fast Ring (ON) to switch on / off ERPS • SCP (ON) to switch on / off Broadcast Storm Control
Alarm Relay	<ul style="list-style-type: none"> • One relay output (dry contact) for power failure notification • Relay contact load capacity: <ul style="list-style-type: none"> - 2A at 30V DC - 0.5A at 125V DC
Power	<ul style="list-style-type: none"> • DC: terminal block for connection of up to two independent power supplies (48 to 57 V DC)
Ventilation System	<ul style="list-style-type: none"> • Fanless
Casing	<ul style="list-style-type: none"> • Metal • IP40-rated
